INSTRUCTIONS AND INFORMATION TO CANDIDATES

- Write your Centre Number, Candidate Number and Name in the spaces at the top of this page.
- Write your answers on the Question Paper in the spaces provided.
- Write in dark blue or black pen.
- You may use a soft pencil for any diagrams, graphs or rough working.
- Do not use correction fluid.
- Do not write in the margin *For Examiner's Use*.
- Answer **three** questions, **one** from each Section. Tick the Questions you have answered.

- Sketch maps and diagrams should be drawn whenever they serve to illustrate an answer.
- The number of marks is given in brackets [] at the end of each question or part question.

SECTION A: PHYSICAL GEOGRAPHY

For
Examiner's
Use

Answer **one** question from **Section A**.

1 (a) (i) Define the term *hydrolysis*.

.....

.....

[1]

(ii) Distinguish between weathering and erosion.

.....

.....

.....

.....

.....

.....

.....

[3]

(iii) Describe why chemical weathering is rapid in tropical rainforests.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[4]

(iv) Describe and explain how plants facilitate the break down of rocks.

For
Examiner's
Use

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[5]

(b) Study Fig. 1, which shows freeze-thaw weathering.

Fig. 1

- (i) Using evidence from Fig. 1 **only**, identify and describe factors that cause freeze-thaw weathering to take place in this location.

.....

.....

.....

.....

.....

.....

.....

.....

[3]

- (ii) Using a fully labelled diagram **only**, describe the process of exfoliation.

[4]

[illegible]

[25]

2 (a) (i) Define the term *abrasion*.

.....

.....

.....

[1]

(ii) Distinguish between surface creep and saltation.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[3]

(iii) Describe why seif dunes are formed in the Namib Desert.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[4]

(iv) Describe and explain the formation of a deflation hollow.

For
Examiner's
Use

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[5]

(b) Photograph A shows a type of dune in Sossusvlei, Namibia.

Photograph A

- (i) Identify and describe the formation of the type of dune shown in Photograph A.

.....

.....

.....

.....

.....

.....

.....

.....

[3]

- (ii) Using a labelled diagram **only**, describe the formation of a rock pedestal.

[4]

- [illegible]

[25]

SECTION B: ECONOMIC ACTIVITIES AND THE USE OF RESOURCESFor
Examiner's
UseAnswer **one** question from **Section B**.**3 (a) (i)** Define the term *secondary industry*.

.....

.....

.....

[1]

(ii) Describe the management strategies that the fishing industry has undertaken to ensure the sustainable use of fish resources in Namibia.

.....

.....

.....

.....

.....

.....

.....

[3]

(iii) Describe the physical factors that have influenced the availability of raw materials like fish in Namibia.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[4]

(iv) Explain the physical factors threatening the availability of fish resources.

For
Examiner's
Use

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[5]

(b) Study Photograph B, which shows Namibia's fishing industry in Walvis Bay.

For
Examiner's
Use

Photograph B

- (i) From Photograph B **only**, describe **three** human factors influencing the location of fish processing plants in Walvis Bay.

1

.....

2

.....

3

.....

[3]

- (ii) Using Photograph B **only**, name and explain **two** physical factors that have influenced the location of fish processing plants in Walvis Bay.

1

.....

.....

2

.....

.....

.....

[4]

[illegible]

[25]

4 (a) (i) Define the term *wildlife conservation*.

.....

.....

.....

[1]

(ii) Describe ways in which the Namibian economy benefits from wildlife protection.

.....

.....

.....

.....

.....

.....

.....

[3]

(iii) Describe the conflicts between the management of wild animals and other land use activities.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[4]

(iv) Explain the positive impacts of wildlife animals on the environment.

For
Examiner's
Use

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[5]

- (b) Fig. 2 shows wildlife numbers of two countries, Namibia and Kenya in southern Africa from 1960 to 2020.

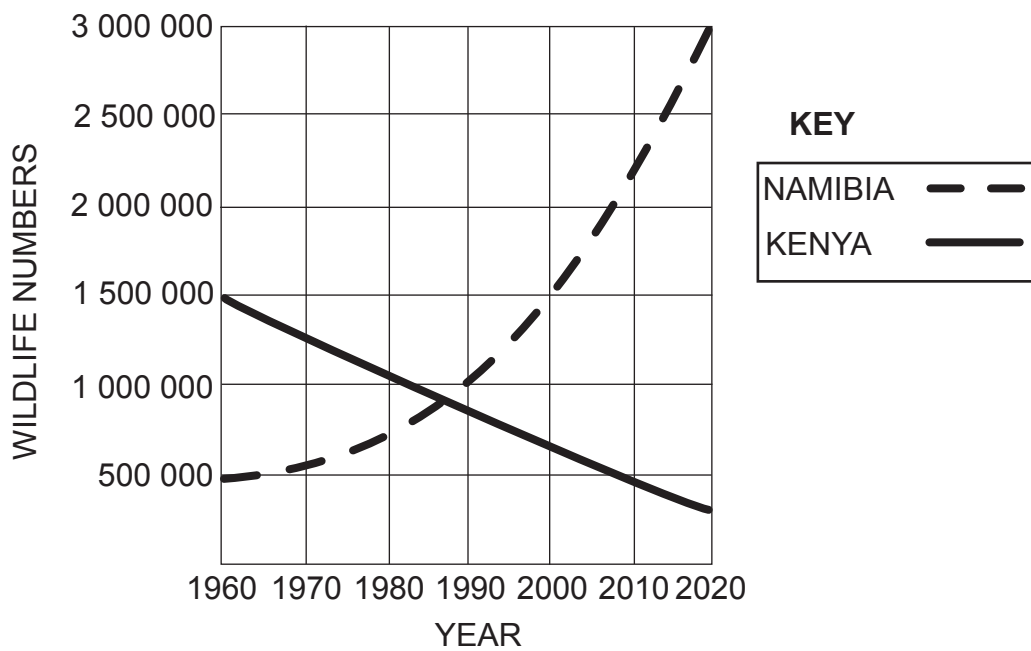

Fig. 2

- (i) Describe the changes in wildlife numbers between Namibia and Kenya from 1960 to 2020. Support your answer with data from Fig. 2 **only**.

.....

.....

.....

.....

.....

.....

[3]

- (ii) Name and explain **two** environmental reasons for the change on Kenya's wildlife numbers with reference to Fig. 2.

1

.....

.....

.....

2

.....

.....

.....

[4]

This image shows a full page of a handwriting practice worksheet. It consists of multiple rows of horizontal dashed lines spaced evenly down the page, providing a guide for letter height and placement. The background is plain white, and there are no margins or additional markings.

[25]

SECTION C: POPULATION AND SETTLEMENT

For
Examiner's
Use

Answer **one** question from **Section C**.

5 (a) (i) Define the term *urbanisation*.

.....

.....

.....

.....

[1]

(ii) Describe factors that negatively influence the functions of rural settlements in More Economically Developed Countries (MEDCs).

.....

.....

.....

.....

.....

.....

.....

.....

.....

[3]

(iii) Describe why cities in Less Economically Developed Countries (LEDs) grow rapidly.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[4]

(iv) Explain the negative effects urban sprawl has on the environment.

For
Examiner's
Use

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[5]

- (b) Study Photograph **C**, which shows an urban problem in a Less Economically Developed Country (LEDC) in Africa.

For
Examiner's
Use

Photograph C

- (i) Using Photograph **C only**, identify and describe the causes of this problem.

.....

.....

.....

.....

.....

.....

[3]

- (ii) Using Photograph **C only**, describe how urban planners have attempted to solve this problem.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[4]

- [illegible]

[5]

[25]

[Turn over

6 (a) (i) Define the term *AIDS*.

.....

.....

[1]

(ii) Describe the positive impacts of condom use on the population structure of Namibia.

.....

.....

.....

.....

.....

.....

[3]

(iii) Describe the negative social impacts of HIV and AIDS on Less Economically Developed Countries (LEDCs) like Namibia.

.....

.....

.....

.....

.....

.....

.....

[4]

(iv) Explain the efforts taken by the government in managing problems caused by HIV and AIDS in Namibia.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

[5]

- Namibia has a generalized HIV epidemic, with 8.3% of the general population of 2 500 000 living with HIV. HIV/AIDS was responsible for an estimated 3 052 deaths in 2020, and the disease remains the leading cause of death among adults and among children under 5 years of age. Among adults under 25 years of age, women bear a disproportionate burden of the HIV epidemic, with a prevalence of 19.6% compared to 12.7% for men. An estimated 0.98% of children under 15 years of age are HIV infected. The highest proportion of estimated new infections is among women older than 25 years, accounting for 36.9% of new infections. Men older than 25 years are estimated to account for 28.1% of the new infections.

(i) Use the information from the newspaper extract to calculate the number of people living with HIV. Show all your working.

(ii) Use the information from the newspaper extract to describe the negative demographic impacts of HIV and AIDS in Namibia.

[Turn over

This image shows a full page of white paper with horizontal dotted lines. The lines are evenly spaced and run across the width of the page, providing a guide for handwriting practice. There are no margins, text, or other markings on the page.
