This document consists of **16** printed pages.

Republic of Namibia
MINISTRY OF EDUCATION, ARTS AND CULTURE

- 1 Study the 1:50 000 map extract of Lüderitz (Namibia) and answer the following questions.

(a) (i) Identify the type of scale shown on the map.

.....
.....

[1]

(ii) Measure and calculate the distance of the runway of the airstrip north-east of Kolmanskop in meters. Show all your workings.

.....
.....
.....
.....

[3]

(iii) Calculate the area of Penguin Island in square meters. Show all your workings.

.....
.....
.....
.....
.....
.....

[4]

(iv) Determine the compass direction and calculate the bearing from spot height 199 in the north eastern corner of the mapped area to the spot height 65 east of Agate Park in Lüderitz.

Compass direction

Bearing.....

[2]

(b) (i) Write down **two** coastal physical features along the coast of Lüderitz.

1
.....
2
.....

[2]

- (ii) Write down **two** services provided to the people of Lüderitz and provide map evidence to support your answers.

Services

1

2

Map evidence

1

.....

2

.....

[4]

- (iii) Give reasons for the growth of the settlement of Lüderitz.

.....

.....

.....

.....

.....

.....

.....

.....

[4]

- (c) Find and calculate the co-ordinates (latitude and longitude) of the monument at Kolmanskop Ghost Town. Give your answer in degrees, minutes and seconds.

.....

.....

[2]

[22]

- 2 Photograph **A** shows an upper part of a river and its valley.

Photograph A

- (a) (i) Name **one** landform from Photograph **A**.

.....

[1]

- (ii) State **two** ways how the river transports its load in this part of the river.

1

2

[2]

- (iii) Describe the features of the river valley shown in Photograph **A**.

.....

.....

.....

.....

.....

[2]

- (b) Fig. 1 is a sketch of the longitudinal profile of the section of the river valley that is shown in Photograph A.

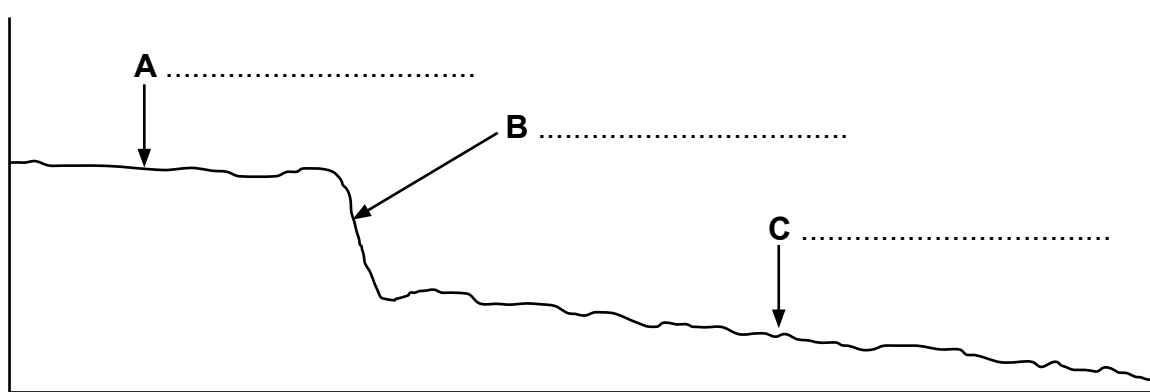

Fig. 1

- (i) Add **two** labels to the sketch to describe the river at **A**, **B**, or **C**. [1]
- (ii) Discuss how far you agree that people might object to a plan to build a dam across this valley.

.....

.....

.....

.....

[1]

[7]

- 3 Fig. 2 shows a climatic graph for Jornada, an area in the Chihuahuan Desert of Mexico.

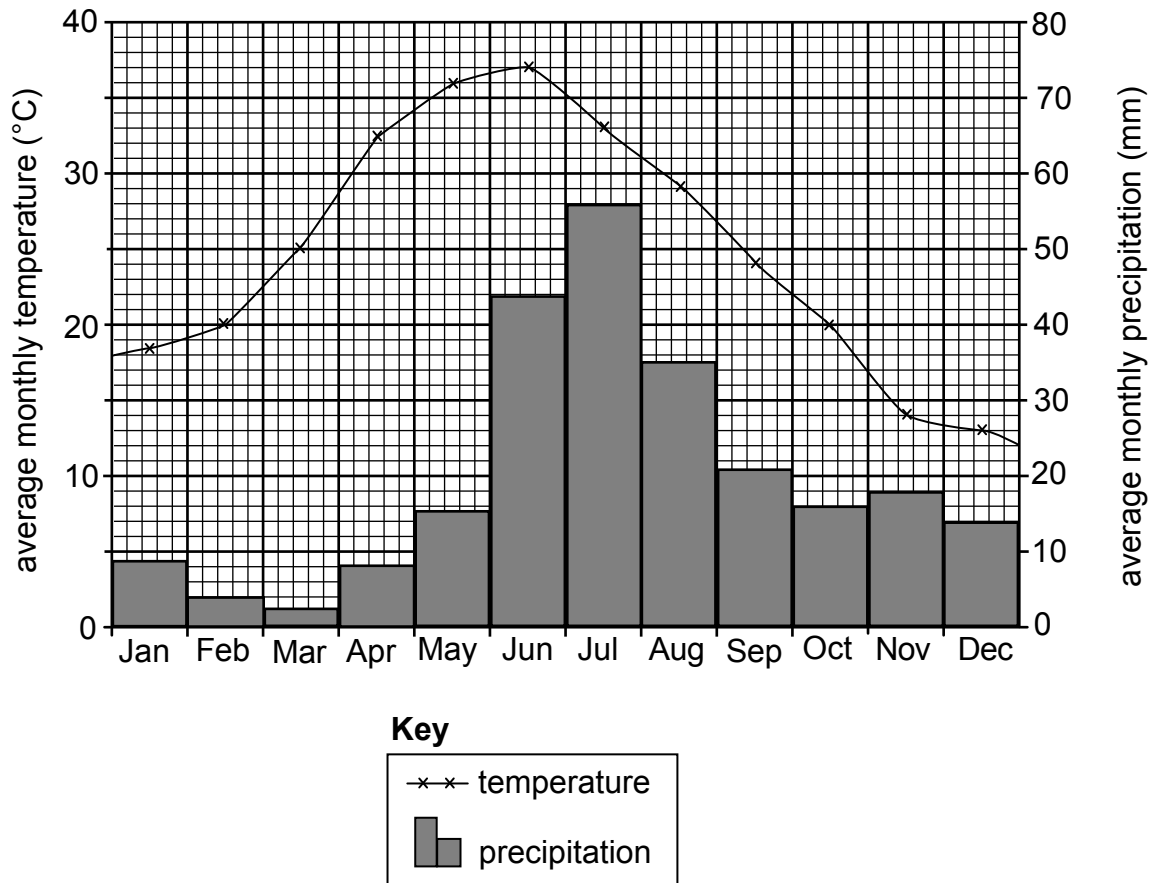

Fig. 2

- (a) (i) Calculate the range of temperature for the area.

.....
 [1]

- (ii) Calculate the total annual rainfall of this area.

.....
 [1]

- (iii) Compare the average monthly rainfall at Jornada in January and July.
 Suggest a reason for this difference.

Comparison.....

.....

Reason for difference.....

..... [2]

- (b) (i)** Describe the variation of temperatures at Jornada during the year.

.....

.....

.....

.....

.....

.....

[2]

- (ii)** Discuss how far you agree that the weather associated with low pressure will always lead to rainfall.

.....

.....

.....

.....

[2]

[8]

4 Table 1 and Fig. 3 give information about world coal and oil reserves.

World Coal Reserves

Area	Amount (billions of tonnes)	Percentage
Asia & Australia (Excluding Middle East)	322.2	31
Africa	62.3	6
Latin America	11.4	(ii)
Europe & Russia	379.1	37
North America	249.2	24
Middle east	10.3	1
Total	1034.5	100

Table 1

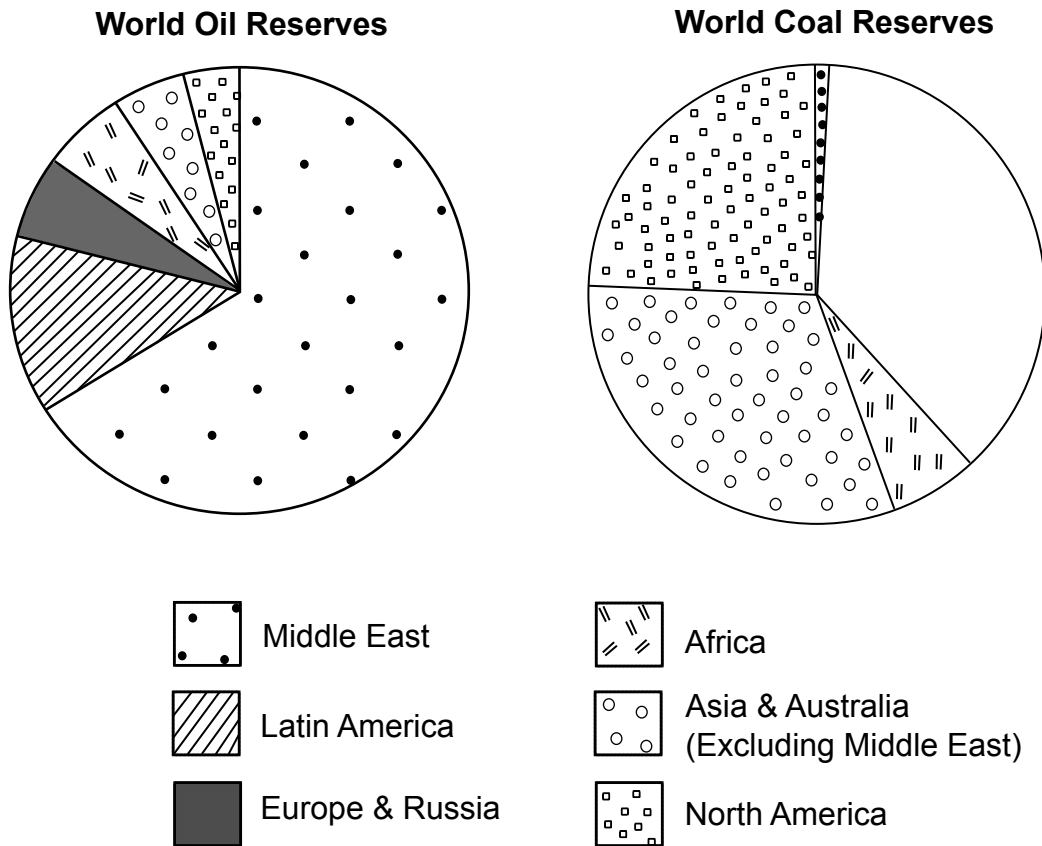

Fig. 3

- (a) (i)** Define *non-renewable energy sources*.

.....

.....

- (ii) Complete Table 1 by giving the percentage of coal reserves for Latin America.

- (iii) Use the information in Table 1 to complete the pie chart in Fig. 3 for world coal reserves for Latin America and Europe & Russia. Use the key provided.

- (b) (i)** Use Table 1 and Fig. 3 to complete the following paragraph by writing the correct answers in the open spaces.

Over half of the oil reserves are found in

.....

The world's coal reserves are found mostly in three of the six areas which are: Asia & Australia, Europe & Russia and

.....

The continent with less than 10% of the world reserves of both oil and coal is

.....

Countries are developing the use of renewable sources such as

.....

[2]

- (ii)** Discuss how far you agree with many world regions still using oil as a source of energy.

.....

.....

.....

.....

[1]

[7]

5 The map in Fig. 4 shows features important to tourism in Namibia.

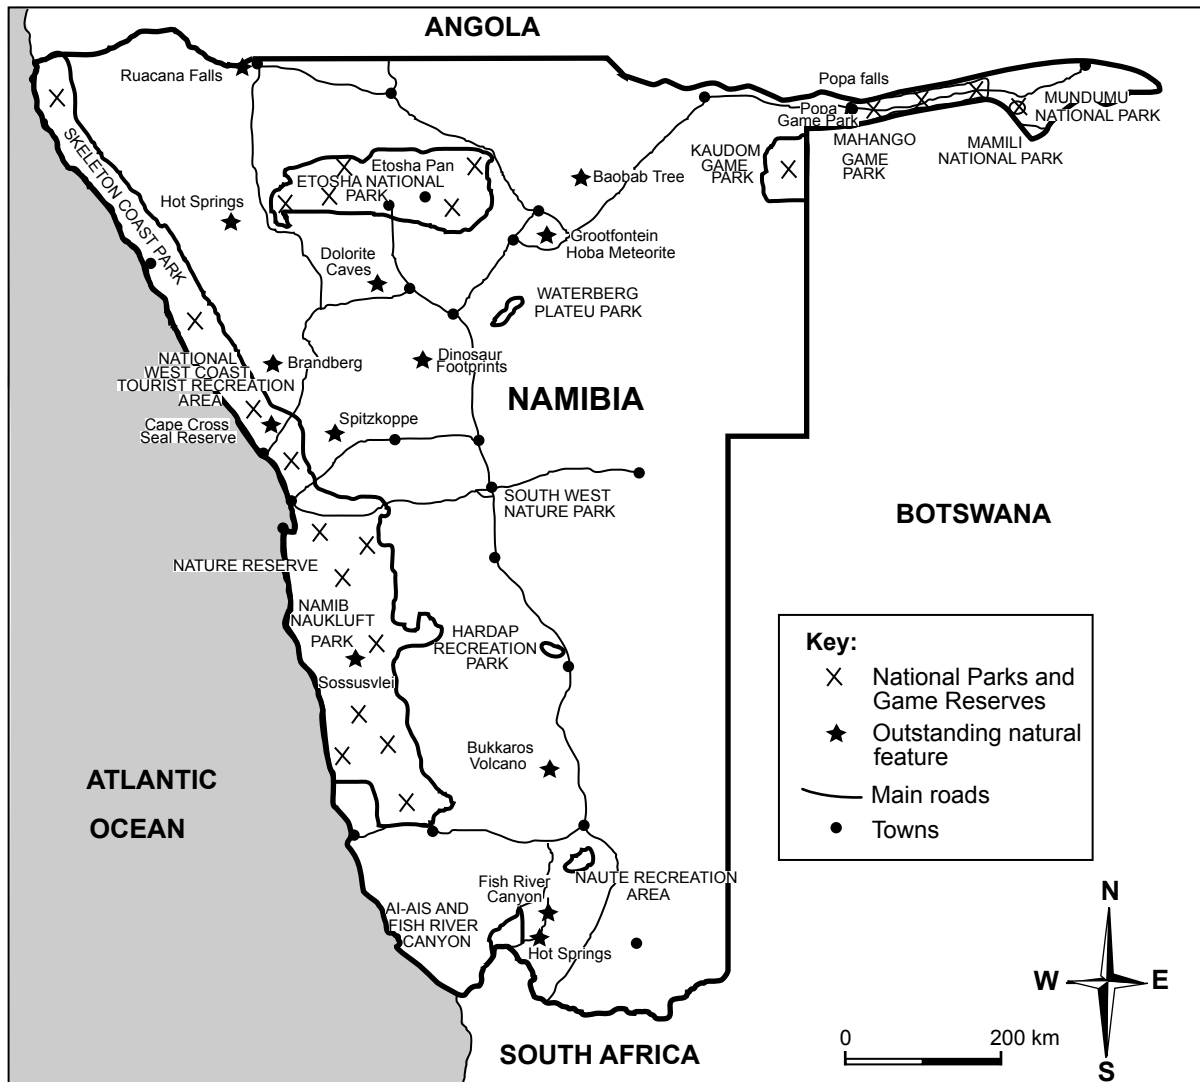

Fig. 4

(a) (i) Define the term *leisure*.

[1]

(ii) From Fig. 4, name **one** national park.

[1]

(iii) According to Fig. 4, what type of communication makes tourism possible between different attractions in Namibia?

[1]

(iv) Name an outstanding natural feature on the Skeleton Coast Park.

[1]

- (b) Fig. 5 gives information about the number of tourists of the world in 2000, 2006 and 2012.

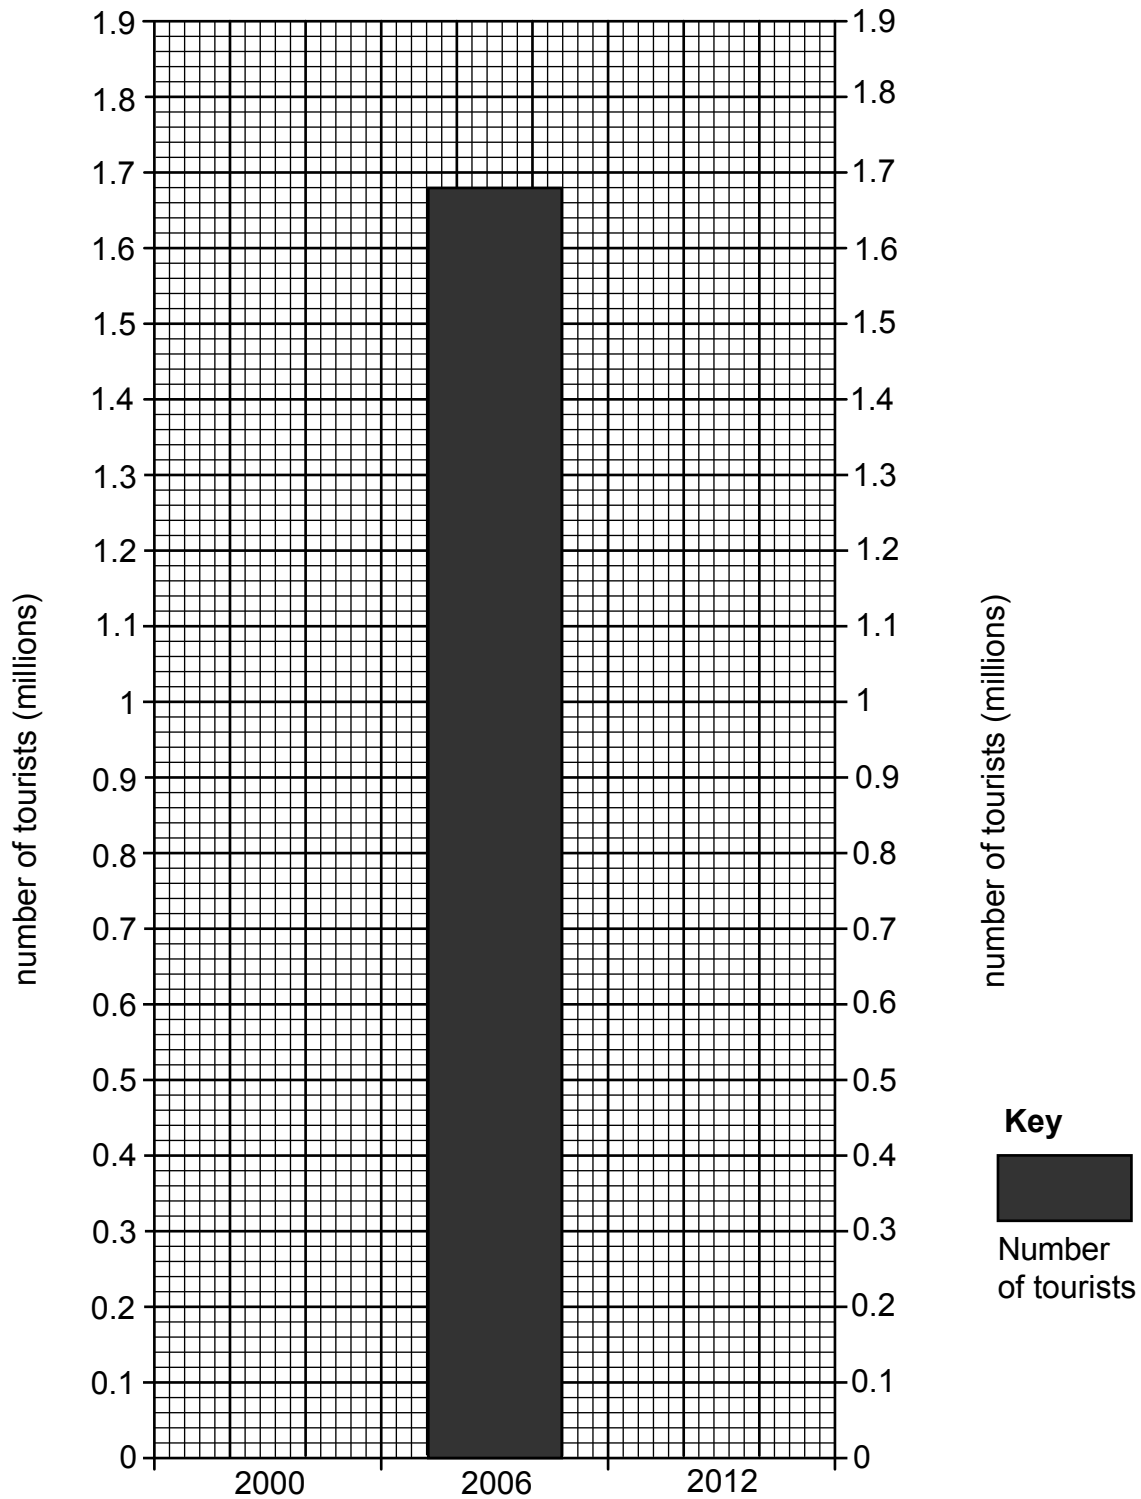

Fig. 5

- (i) Complete Fig. 5 to show the world's tourist numbers in 2000 and 2012.

2000 : 1 330 000

2012 : 1 880 000

[2]

- (ii) Discuss how far you agree that the tourism industry can provide an economic advantage for local communities.

.....

.....

.....

[1]

[7]

6 Study Fig. 6, which shows a rural area.

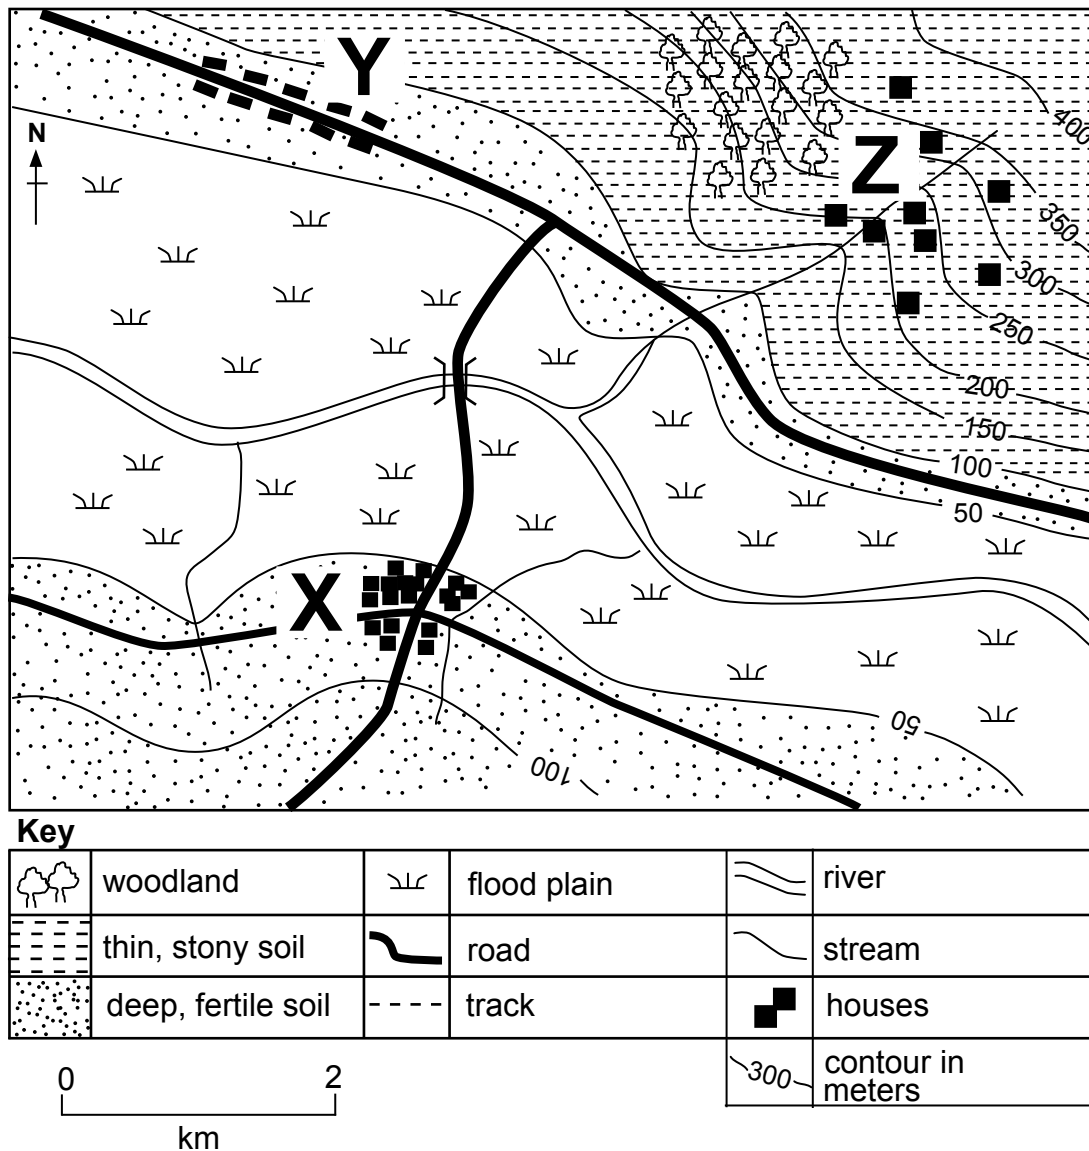

Fig. 6

(a) (i) Define the term *urban sprawl*.

[1]

(ii) Identify the rural settlement pattern at Z.

[1]

(iii) Use the diagram to describe the linear pattern of settlement Y.

[1]

(iv) Use Fig. 6 to give a reason for the growth of settlement X.

[1]

(b) Photograph B shows part of a city in Namibia, Windhoek.

Photograph B

- (i) Name the part of an urban settlement indicated in Photograph B and give one piece of evidence for your choice.

.....

.....

.....

[2]

- (ii) Discuss how far you agree that multiple traffic lanes in Photograph B solves the problem of traffic congestion.

.....

.....

[1]

[7]

- 7 Fig. 7 shows the world's population and projected world population change.

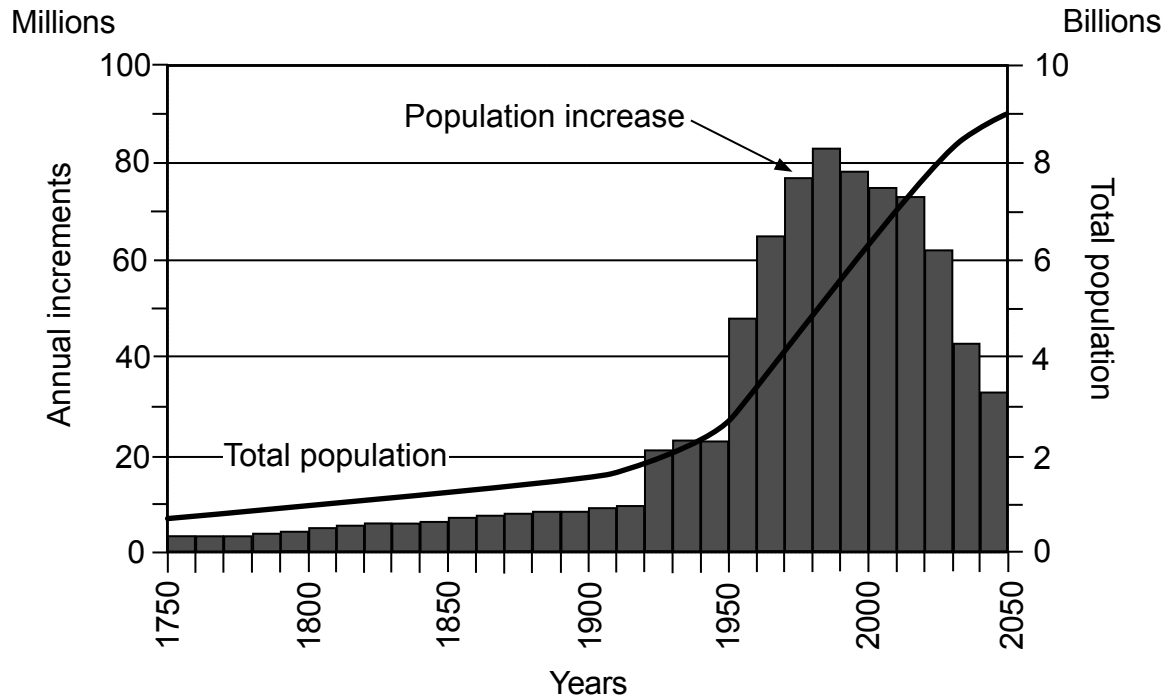

Fig. 7

- (a) (i) What is the projected population for 2050?

[1]

- (ii) From 1950, the world experienced a population explosion.
Give **one** reason for this population explosion.

[1]

(b) Fig. 8 shows the population pyramids of four countries **A**, **B**, **C** and **D**.

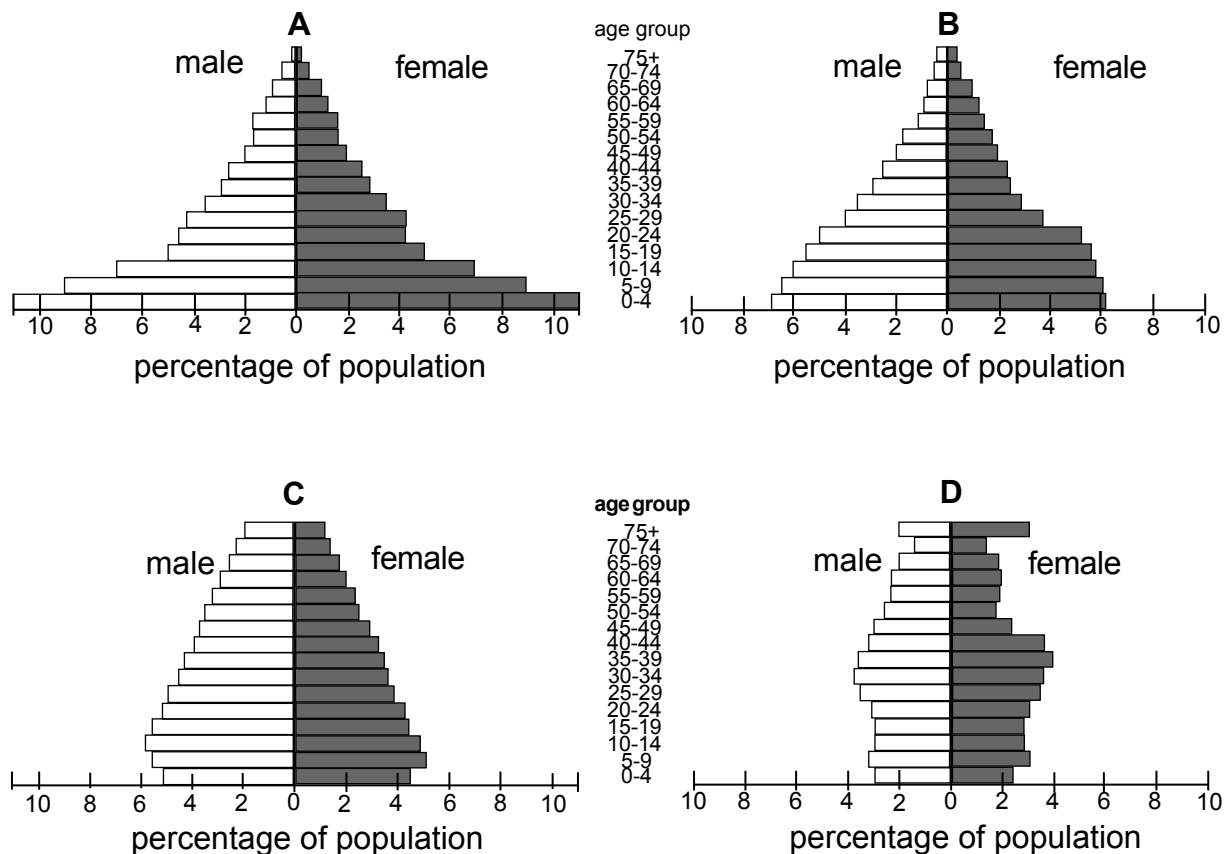

Fig. 8

- (i) Which pyramid in Fig. 8 is most likely to show
- the country with a decreasing birth rate?
 - the country with the lowest life expectancy?
 - the country with the highest death rate? [3]
- (ii) How does the shape of population pyramid **D** in Fig. 8 indicate that the country has an ageing population?
- [1]
-
- (iii) Discuss how far you agree that there is a relationship between infant mortality rate and healthcare.
- [1]
